

Gloucestershire Woodlands 23 September 2018

Joint Forays with the Cotswold Fungus Group

Lower Woods Nature reserve, near Wickwar

Abortiporus biennis

Armillaria mellea

Bisporella citrina

Calocera cornea

Calocera viscosa

Chlorociboria aeruginascens

Clitocybe geotropa

Clitocybe nebularis

Conocybe tenera

Coprinellus disseminatus

Coprinopsis lagopus

Crepidotus mollis

Dacrymyces stillatus

Daedaleopsis confragosa

Daldinia concentrica

Entoloma rhodopolium

Fistulina hepatica

Galerina graminea

Gymnopus dryophilus

Hydnum repandum

Hymenochaete corrugata

Hymenochaete rubiginosa

Hypholoma fasciculare

Inocybe flocculosa

Inocybe geophylla

Laccaria amethystina

Laccaria laccata

Lycogala epidendrum

Macrotiophula juncea

Marasmius rotula

Mycena abramsii

Mycena arcangeliana

Mycena galericulata

Mycena haematopus

Mycena pura

Mycena vitilis

Pluteus cervinus

Psathyrella candolleana

Rhodocollybia butyracea

Rickenella fibula

Russula ochroleuca

Tricholoma atrosquamosum var.

squarulosum

Tricholoma basirubens

Tricholoma sulphureum

Xerula radicata

Xylaria hypoxylon

Xerula radicata

Midger Woods Nature Reserve, near Hillesley

Agaricus moelleri

Armillaria mellea

Bisporella citrina

Clavulina cinerea

Coprinellus disseminatus

Coprinellus micaceus

Crepidotus cesatii

Crepidotus mollis

Daldinia concentrica

Ganoderma australe

Geastrum triplex

Hemimycena cucullata

Hymenochaete corrugata

Inocybe fuscidula var. *fuscidula*

Inocybe geophylla var. *lilacina*

Kuehneromyces mutabilis

Leucoagaricus crystallifer

Lycoperdon nigrescens

Mycena aetites

Mycena arcangeliana

Mycena galericulata

Mycena haematopus

Mycena inclinata

Parasola conopilus

Pholiota squarrosa

Polyporus ciliatus

Psathyrella pseudogracilis

Tremella mesenterica

Xylaria hypoxylon

Clitocybe geotropa: found throughout the Lower Woods
