

## Hay Wood, 24 October 2021

This was a follow up Foray after our visit in 2019. We are again very grateful to the owners of Hay Wood and to Judith for arranging this visit. Unlike the visit in 2019, this Foray was accompanied by some very heavy rain. Despite this there was a good attendance, more than 10 enthusiasts, leading to an extensive list of fungi being compiled.

Many thanks to Dave for providing the photographs shown below..

### List of Fungi

<i>Agaricus campestris</i>	<i>Galerina marginata</i>	<i>Parasola conopilus</i>
<i>Agaricus moelleri</i>	<i>Hypholoma fasciculare</i>	<i>Pluteus cervinus</i>
<i>Armillaria mellea</i>	<i>Hypoxylon fuscum</i>	<i>Schizopora paradoxa</i>
<i>Bisporella citrina</i>	<i>Infundibulicybe geotropa</i>	<i>Stereum hirsutum</i>
<i>Calocera cornea</i>	<i>Inocybe asterospora</i>	<i>Trametes versicolor</i>
<i>Clavulina rugosa</i>	<i>Inocybe geophylla</i>	<i>Trochila ilicina</i>
<i>Claviceps purpurea</i>	<i>Inonotus hispidus</i>	<i>Xylaria hypoxylon</i>
<i>Clavulinopsis corniculata</i>	<i>Kuehneromyces mutabilis</i>	<i>Xylaria polymorpha</i>
<i>Clavulinopsis fusiformis</i>	<i>Laccaria laccata</i>	
<i>Cortinarius hinnuleus</i>	<i>Lepiota cristata</i>	
<i>Crepidotus cesatii</i>	<i>Lycoperdon molle</i>	
<i>Crepidotus mollis</i>	<i>Lycoperdon pyriforme</i>	
<i>Cuphophyllus pratensis</i>	<i>Mycena arcangeliana</i>	
<i>Cuphophyllus virgineus</i>	<i>Mycena galericulata</i>	
<i>Daedaleopsis confragosa</i>	<i>Mycena haematopus</i>	
<i>Daldinia concentrica</i>	<i>Mycena polygramma</i>	
<i>Exidia thuretiana</i>	<i>Mycena pura</i>	
<i>Flammulina velutipes</i>	<i>Mycena rosea</i>	
	<i>Mycena vitilis</i>	

*Bisporella citrina*

*Galerina marginata*

*Cuphophyllus pratensis*

*Inocybe asterospora*

*Inocybe asterospora*: stellate spores

*Mycena arcangeliana*

*Pluteus cervinus*
